INFORMATION:

what is GitHub?

GitHub is a platform for hosting code that allows for version control and collaboration. It allows you and others to collaborate on projects from anywhere. This lesson will teach you the fundamentals of GitHub

WHO CREATED GITHUB?

GitHub was developed by Chris Wanstrath, P. J. Hyett, Tom Preston-Werner and Scott Chacon

WHAT IS THE HISTORY OF GITHUB?

Born in 2008 in an office in the San Francisco Valley (like so many other projects), GitHub today has more than 9 million registered users, more than 200 million visits per month and has been valued at more than 2 billion dollars (by what's on Fortune's Unicorn List)

WHAT IS THE HISTORY OF GITHUB:

GitHub has been around since 2008, when co-founder Chris Wanstrath created the first commit code for what would become the world's leading platform for software development
